I. SUBJECTS

A

ABSTRACT BULLETIN

Abstract Bulletin of the Institute of Metals Division of TMS. Abstracts of Papers to Be Presented at the 1968 Fall Meeting of TMS-AIME. Vol. 3, No. 2. Aug, 1968, pp. 1A-127A.

Abstract Bulletin of TMS-AIME. Abstracts of Papers to Be Presented at the 97th AIME Annual Meeting. Vol. 3, No. 1. Jan, 1968, pp. 1A-184A.

Abstract Bulletin of TMS-AIME. Abstracts of Papers to be presented at the 98th AIME Annual Meeting. Dec, 1968, pp. 1A-52A.

AIR POLLUTION

Atmospheric Corrosion of Splat Cooled Aluminum Alloy Foils. C. Jansen, Nicholas J. Grant (MIT) and Bill C. Giessen (Northeastern Univ.). Dec, 1968, pp. 10-11.

AIR POLLUTION CONTROL

Sulfur Oxides Emissions by Smelters. F. A. Rohrman and John H. Ludwig (Nation Air Pollution Control Administration). Dec, 1968, p. 46.

ALLOYS

Densities of Molten Sodium-Lead and Sodium-Bismuth Alloys. J. C. Hesson, H. Shimotake, and J. M. Trailmer (Argonne National Lab.). Feb, 1968, pp. 6-7.

Influence of Small Additions of Silver on the Structure and Properties of Aged Aluminum Alloys. I. J. Polmear (Monash Univ.). June, 1968, pp. 44-51.

The Metallurgy of Cobalt Alloys—A 1968 Review. F. R. Morral (Battelle Memorial Institute). July, 1968, pp. 52-59.

ALUMINA

Recovery and Production of Alumina from Waste Solutions by Solvent Extraction. D. R. George, K. E. Tame, S. R. Crane, and K. B. Higbie (U.S. Bureau of Mines). Sept, 1968, pp. 59-63.

ALUMINO-THERMIC REDUCTION

Production of Tantalum Metal by Alumino-Thermic Reduction of its Pentoxide. C. K. Gupta and P. K. Jena (Bhaba Atomic Research Centre, India). May, 1968, pp. 25-28.

ALUMINUM

An Analysis of New Quenchants for Aluminum. O. R. Singleton, Jr. (Reynolds Metals Company). Nov, 1968, pp. 60-67.

Dispersion Strengthened Al-Al_2O_3 by Plasma Spraying. D. M. Schuster and Marvin Moss (Sandia Laboratory). Oct, 1968, pp. 63-66.

The Influence of Small Additions of Silver on the Structure and Properties of Aged Aluminum Alloys. I. J. Polmear (Monash Univ.). June, 1968, pp. 44-51.

New Aluminum Composites—A Review. M. Salkind (United Aircraft Corp.). March, 1968, pp. 30, 32.

New Generation Carbon Baking Furnace Refractories. A. L. Renkey, P. T. Troell and B. E. Wilson (Harbison-Walker Refractories) Nov, 1968, pp. 37-40.

Potlining Problems in the Aluminum Industry. Edited by G. H. Traylor (Aluminum Co. of America). July, 1968, pp. 63-72: Monolithic Vs. Block Linings. R. C. Studley (Aluminum Co. of America). p. 63; The Heaving of the Carbon Lining of Aluminum Reduction Cells. T. Watanabe, H. Hayashi, F. Mochizuki (Nippon Light Metal Research Laboratory, Ltd.). pp. 64-65; Carbonaceous Materials for Monolithic Linings. L. S. Newman (Kaiser Aluminum and Chemical Corp.). p. 66; Carbonaceous Materials for Prebaked Cathode Blocks. G. Wilde and G. Lange (Vereinigte Aluminium-Werke A. G.). p. 67; Pot Insulation. A. V. de Pava (Montecatini-Edison S. P. A.). p. 68; Baking and Starting a New Lining. R. Odievre (Intalco Aluminum Corp.). pp. 68-69; Some Effects of Cell Operation on Lining Life. T. G. Edgeworth (Aluminum Co. of Canada). pp. 69-70; Replacement of Lining After Failure. H. Bohner (Alusuisse). p. 70; Minimization of Cathode Voltage Losses. G. E. White (Reynolds Metals Co.). pp. 71-72.

Practical Experiences with the Tube Digester. K. Bielfeldt (Vereinigte Aluminium-Werke, Aktiengesellschaft). Sept, 1968, pp. 48-54.

ANNUAL MEETING

Abstract Bulletin of TMS-AIME. Abstracts of Papers to Be Presented at the 97th AIME Annual Meeting. Vol. 3, No. 1. Jan, 1968, pp. 1A-184A.

Abstract Bulletin of TMS-AIME. Abstracts of Papers to Be Presented at the 98th AIME Annual Meeting. Dec, 1968, pp. 1A-52A.

B

BASIC OXYGEN STEELMAKING

A Method for Direct Oxygen Determination in Molten Metals. J. K. Pargeter (International Nickel Co., Inc.). Oct, 1968, pp. 27-31.

Slag-Metal Emulsions and their Importance in BOF Steelmaking. H. W. Meyer, W. F. Porter, G. C. Smith (Jones & Laughlin Steel Corp.) and J. Szekely (SUNY, Buffalo). July, 1968, pp. 35-42.

C

CARBON BAKING FURNACE REFRACTORIES

New Generation Carbon Baking Furnace Refractories. A. L. Renkey, P. T. Troell and B. E. Wishon (Harbison-Walker Refractories) Nov, 1968, pp. 37-40.

COBALT

Addition of Cobalt to the Ti-6Al-4V Alloy. E. Diderrich (Centre National de Recherches Metallurgiques, Belgium), K. Rudinger (Contimet, Germany), G. Turiach (Kamax-Werke, Germany), and L. Habraken (Univ. of Liege and CNRM). May, 1968, pp. 29-37.

COBALT ALLOYS

The Metallurgy of Cobalt Alloys—A 1968 Review. F. R. Morral (Battelle Memorial Institute). July, 1968, pp. 52-59.

COMPOSITES

New Aluminum Composites—A Review. M. Salkind (United Aircraft Corp.). March, 1968, pp. 30, 32.

CONTINUOUS CASTING

Continuous Casting of Wide Slabs. H. Schrewe (Mannesmann Aktiengesellschaft). March, 1968, pp. 14-18.

CONVERTERS

An Analysis of Copper Converter Size and Capacity. C. L. Milliken and F. F. Hofinger (Kaiser Engineers). April, 1968, pp. 39-45.

Copper Converter Refractory Practices. Edited by Emil S. Kramlick (The Anaconda Company). Oct, 1968, pp. 43-54; Converter Refractory Practice at American Smelting and Refining. W. R. Kelly, pp. 43-44; Converter Refractory Practice at Anaconda. K. F. Ruckwardt, J. S. McDonald and M. A. Senne, pp. 45-46; Converter Refractory Practice at the Caletones Smelter. C. Pistelli (Sociedad Minera et Teniente S. A.) pp. 46-47; Converter Refractory Practice at the Sulphide Smelter. O. Z. Jara (Chile Exploration Company). pp. 47-48; Converter Refractory Life at Inspiration. D. W. Rodolff. pp. 48-49; Converter Refractory Practices at Kennecott's Smelters. J. E. Foard, D. A. Kinneberg and J. M. Noy. pp. 49-51; Converter Refractory Practice at the Harjevalta Works of Outokumpu Oy. pp. 51-52; Converter Refractory Practice at Palabora. C. C. Beals and R. J. Stevens. pp. 52-53; Converter Practices at the Ilo Smelter. W. H. Machle (Southern Peru Copper Corp.). pp. 53-54.

The Gaspe Mechanical Tuyere Puncher and Converter Performance. P. L. Fowler (East Coast Smelting and Chemical Co., Ltd.), L. A. Mills (Gaspe Copper Mines Ltd.), and G. A. Balogh (Canadian Electrolytic Zinc, Ltd.). Sept. 1968, pp. 43-47.

History of Copper Converting. T. M. Morris (Univ. of Arizona). July, 1968, pp. 73-75.

History of Sulfuric Acid Production from Converter Gas at the Kennecott Copper Corporation's Utah Smelter. R. Thompson and E. B. Butler (Kennecott Copper Corp). July, 1968, pp. 82-84.

Mechanical Converter Punching at the Morenci Smelter. Fred M. Winkler (Phelps Dodge Corp.). Sept, 1968, pp. 38-42.

Mechanical Tuyere Punchers—A Review. F. M. Aimone (Heath & Sherwood (1964) Ltd.). Sept, 1968, pp. 33-37.

COPPER (Cf. Converters, Refractories and Smelters)

Copper and By-Product Sulfuric Acid Production by Palabora Mining Company. G. C. Beals and J. J. Cadle (Palabora Mining Co.). July, 1968, pp. 85-92.

D

DEFORMATION MECHANISMS

Deformation Mechanisms in Hot Working. H. J. McQueen (Canadian Department of Energy, Mines and Resources) April, 1968, pp. 31-38.

DISPERSION-STRENGTHENED ALUMINUM

Dispersion Strengthened Al-Al_2O_3 by Plasma Spraying. D. M. Schuster and Marvin Moss (Sandia Laboratory). Oct, 1968, pp. 63-66.

E

ECONOMICS

Forces of Economic Change in the Asian Steel Industry. F. M. Hruz and W. V. Morris (Stanford Research Institute). July, 1968, pp. 60-62.

Forces of Economic Change in the European Steel Industry: Excess Capacity and Price Weakness. J. R. Miller (Battelle Memorial Institute). June, 1968, pp. 22-25.

Forces of Economic Change—Steel U.S.A. C. A. Lovgren (Swindell-Dressler Co.). June, 1968, pp. 17-21.

EDUCATION

Mathematics for Metallurgists: A Report on the National Study of Mathematics Requirements for Scientists and Engineers. G. H. Miller (Edinboro State College). Oct, 1968, pp. 39-42.

ELECTRIC FURNACE

Electric Arc Melting—A New Era in Steelmaking. J. W. Brown (Union Carbide Corp.). Oct, 1968, pp. 21-26.

ELECTROLYSIS

Commercial Production of Rare Earth Metals by Fused Salt Electrolysis. I. S. Hirschhorn (Ronson Metals Corp.). March, 1968, pp. 19-22.

The New Jersey Zinc Company: Electrolytic Titanium Pilot Plant. A. J. Myhren (deceased), E. H. Kelton, R. L. Johnson, G. E. Snow, L. D. Grady, E. W. Andrews, L. J. Reimert, and C. E. Barnett (New Jersey Zinc Co.). May, 1968, pp. 38-41.

ELECTRON DIFFRACTION

Low Energy Electron Diffraction: The Techniques and its Application to Metallurgical Science. J. M. Morabito and G. A. Somorjai (Lawrence Radiation Lab.). May, 1968, pp. 17-24.

ELECTRON MICROSCOPY

Comparison of Transmission Electron Microscopy and Scanning Electron Microscopy. O. Johari (IITRI). June, 1968, pp. 26-32.

ELECTRONIC MATERIALS CONF.

Report of the IMD Electronic Materials Conference: Materials Aspects of Optical and Nuclear Radiation. Forrest V. Williams (Monsanto Company). Nov, 1968, pp. 30, 69.

EXTRACTIVE METALLURGY

A Challenging Future. C. W. Borgmann (The Ford Foundation). May, 1968, pp. 42-43.

F

FALL MEETING

Abstract Bulletin of the Institute of Metals Division of TMS. Abstracts of Papers to Be Presented at the 1968 Fall Meeting of TMS-AIME. Vol. 3, No. 2. Aug, 1968, pp. 1A-127A.

H

HOT WORKING

Deformation Mechanisms in Hot Working. H. J. McQueen (Canadian Department of Energy, Mines and Resources). April, 1968, pp. 31-38.

Properties and Control of Hot-Rolled Steels. R. B. G. Yeo, A. G. Melville, P. E. Repas, and J. M. Gray (U.S. Steel Corp.). June, 1968, pp. 33-43.

I

IMPERIAL SMELTING FURNACE

The Metallurgical and Economic Behavior of Lead in the Imperial Smelting Furnace. S. W. K. Morgan and D. A. Greenwood (Imperial Smelting Processes Ltd.). Dec, 1968, pp. 31-35.

INTERSTITIAL IMPURITIES

The Interaction of Interstitial Impurities with Dislocations in Iron. D. N. Beshers (Columbia Univ.). Feb, 1968, pp. 19-23.

L

LEAD

The Metallurgical and Economic Behavior on Lead in the Imperial Smelting Furnace. S. W. K. Morgan and D. A. Greenwood (Imperial Smelting Processes Ltd.). Dec, 1968, pp. 31-35.

Process for Direct Smelting of Lead Concentrates. Frank T. Fuller (St. Joseph Lead Company). Dec, 1968, pp. 26-30.

LOW ENERGY ELECTRON DIFFRACTION

Low Energy Electron Diffraction: The Techniques and its Application to Metallurgical Science. J. M. Morabito and G. A. Somorjai (Lawrence Radiation Lab.). May, 1968, pp. 17-24.

M

MATHEMATICS

Mathematics for Metallurgists: A Report on the National Study of Mathematics Requirements for Scientists and Engineers. G. H. Miller (Edinboro State College). Oct, 1968, pp. 39-42.

METAL JOINING

1968 TMS New England Regional Conference: Metal Joining. C. P. Sullivan (Pratt & Whitney Aircraft). Oct, 1968, pp. 17-19.

METALLOTHERMIC REDUCTION

The Industrial Preparation of the Rare Earth Metals by Metallothermic Reduction. John L. Moriarty, Jr. (Bendix Corp.). Nov, 1968, pp. 41-45.

N

NEW ENGLAND REGIONAL CONF.

1968 TMS New England Regional Conference: Metal Joining. C. P. Sullivan (Pratt & Whitney Aircraft). Oct, 1968, pp. 17-19.

NONMETALLIC INCLUSIONS

Recent Progress in the Chemical Extraction of Nonmetallic Inclusions in Steel-Techniques and Applications. R. G. Smerko and D. A. Flinchbaugh (Bethlehem Steel Corp.). July, 1968, pp. 43-51.

NONMETALLIC MATTER IN STEEL

Identification of Oxides Silicates, and Aluminates in Steel by Optical Methods. R. B. Snow (U.S. Steel Corp.). Oct, 1968, pp. 55-62.

O

OPTICAL AND NUCLEAR RADIATION

Report of the IMD Electronic Materials Conference: Materials Aspects of Optical and Nuclear Radiation. Forrest V. Williams (Monsanto Company). Nov, 1968, pp. 30, 69.

P

PHACOMP

PHACOMP Revisited. H. J. Murphy, C. T. Sims and A. M. Beltran (General Electric Co.) Nov, 1968, pp. 46-53.

PLASMA SPRAYING

Dispersion Strengthened Al-Al_2O_3 by Plasma Spraying. D. M. Schuster and Marvin Moss (Sandia Laboratory). Oct, 1968, pp. 63-66.

PLUTONIUM FUELS

Plutonium Fuels Technology. R. J. Allio and J. B. Roll (Westinghouse Electric Corp.). Feb, 1968, pp. 14-18.

POLLUTION CONTROL

Engineering Aspects of Water Pollution Control Systems. R. G. Dalbke and A. J. Turk (Kaiser Engineers, Inc.). Dec, 1968, pp. 41-45.

Pollution Control at IMC's Potash Operations. R. D. Lindberg (International Minerals & Chemical Corp.). Dec, 1968, p. 47

Stream Pollution Control in the Steel Industry. E. F. Young, Jr. and W. H. Jukkola (Jones & Laughlin Steel Corp.). Dec, 1968, p. 45.

Sulfur Oxides Emissions by Smelters. F. A. Rohrman and John H. Ludwig (National Air Pollution Control Administration). Dec, 1968, p. 46.

Uranium Mill Waste Disposal. Robert G. Beverly (Union Carbide Corp.). Dec, 1968, p. 47.

POTHOLES

Formation of Potholes in Bottom Linings of Hall Cells. M. B. Dell, R. W. Peterson, and J. N. Rumble (Aluminum Co. of America). Sept, 1968, pp. 55-58.

POTLINING LIFE

Methods of Making Early Estimates of Potlining Life. Peter Browne (Aluminum Co. of Canada, Ltd.). Dec. 1968, pp. 36-40.

POTLINING PROBLEMS

Potlining Problems in the Aluminum Industry. Edited by G. H. Traylor (Aluminum Co. of America). July, 1968, pp. 63-72; Monolithic Vs. Block Linings. R. C. Studley (Aluminum Co. of America). p. 63; The Heaving of the Carbon Lining of Aluminum Reduction Cells. T. Watanabe, H. Hayashi, F. Mochizuki (Nippon Light Metal Research Laboratory, Ltd.). pp. 64-65; Carbonaceous Materials for Monolithic Linings. L. S. Newman (Kaiser Aluminum and Chemical Corp.). p. 66; Carbonaceous Materials for Prebaked Cathode Blocks. G. Wilde and G. Lange (Vereinigte Aluminium-Werke A. G.). p. 67; Pot Insulation. A. V. de Pava (Montecatini-Edison S. P. A.). p. 68; Baking and Starting a New Lining. R. Odièvre (Intalco Aluminum Corp.). pp. 68-69; Some Effects of Cell Operation on Lining Life. T. G. Edgeworth (Aluminum Co. of Canada). pp. 69-70; Replacement of Lining After Failure. H. Bohner (Alusuisse). p. 70; Minimization of Cathode Voltage Losses. G. E. White (Reynolds Metals Co.). pp. 71-72.

PRECIOUS METALS

Precious Metals: A Historical Review of Methods for their Determination. W. R. Inman (Canadian Dept. of Energy, Mines and Resources). Dec. 1968, pp. 18-25.

Q

QUENCHANTS FOR ALUMINUM

An Analysis of New Quenchants for Aluminum. O. R. Singleton, Jr. (Reynolds Metals Company). Nov. 1968, pp. 60-67.

R

RARE EARTH METALS

Commercial Production of Rare Earth Metals by Fused Salt Electrolysis. I. S. Hirschhorn (Ronson Metals Corp.). March, 1968, pp. 19-22.

The Industrial Preparation of the Rare Earth Metals by Metallothermic Reduction. John L. Moriarty, Jr. (Bendix Corp.). Nov, 1968, pp. 41-45.

RECRUITING

The Recruiting Venture—Milestone or Millstone? G. Redelfs (St. Joseph Lead). April, 1968, pp. 17-18.

The Recruiting Venture—Some Details. (Staff written). April, 1968, pp. 20-23.

1968 Senior Class in Metals and Materials. J. P. Nielsen (New York Univ.). April, 1967, pp. 24-28.

REFRACTORIES

Copper Converter Refractory Practices. Edited by Emil S. Kramlick (The Anaconda Company). Oct, 1968, pp. 43-54; Converter Refractory Practice at American Smelting and Refining. W. R. Kelly, pp. 43-44; Converter Refractory Practice at Anaconda. K. F. Ruckwardt, J. S. McDonald and M. A. Senne, pp. 45-46; Converter Refractory Practice at the Caletones Smelter. C. Pistelli (Sociedad Minera et Teniente S. A.) pp. 46-47; Converter Refractory Practice at the Sulphide Smelter. O. Z. Jara (Chile Exploration Company). pp. 47-48; Converter Refractory Life at Inspiration. D. W. Rodolff. pp. 48-49; Converter Refractory Practices at Kennecott's Smelters. J. E. Foard, D. A. Kinneberg and J. M. Noy. pp. 49-51; Converter Refractory Practice at the Harjevalta Works of Outokumpu Oy. pp. 51-52; Converter Refractory Practice at Palabora. C. C. Beals and R. J. Stevens. pp. 52-53; Converter Practices at the Ilo Smelter. W. H. Machie (Southern Peru Cooper Corp.). pp. 53-54.

New Generation Carbon Baking Furnace Refractories. A. L. Renkey, P. T. Troell and B. E. Wishon (Harbison-Walker Refractories). Nov, 1968, pp. 37-40.

REFRACTORY METALS

Symposium on Metallurgy and Technology of Refractory Metal Alloys—A State-of-the-Art Review. Irving Machlin (Naval Air Systems Command). Sept, 1968, pp. 21-25.

S

SENIOR CLASS

1968 Senior Class in Metals and Materials. J. P. Nielsen (New York Univ.). April, 1967, pp. 24-28.

SLAG-METAL EMULSIONS

Slag-Metal Emulsions and their Importance in BOF Steelmaking. H. W. Meyer, W. F. Porter, G. C. Smith (Jones & Laughlin Steel Corp.) and J. Szekely (SUNY, Buffalo). July, 1968, pp. 35-42.

SMELTERS

Features of the Onahama Copper Smelter Boilers Behind Converters. T. Nagano (Mitsubishi Metal Mining Co., Ltd.) and M. Niimura (Onahama Smelting and Refining Co., Ltd.). July, 1968, pp. 76-81.

The Metallurgical and Economic Behavior of Lead in the Imperial Smelting Furnace. S. W. K. Morgan and D. A. Greenwood (Imperial Smelting Processes Ltd.). Dec. 1968, pp. 31-35.

Sulfur Oxides Emissions by Smelters. F. A. Rohrman and John H. Ludwig (National Air Pollution Control Administration). Dec. 1968, p. 46.

SMELTING OF LEAD CONCENTRATES

Process for Direct Smelting of Lead Concentrates. Frank T. Fuller (St. Joseph Lead Company). Dec. 1968, pp. 26-30.

SOLVENT EXTRACTION

Recovery and Production of Alumina from Waste Solutions by Solvent Extraction. D. R. George, K. E. Tame, S. R. Crane, and K. B. Higbie (U.S. Bureau of Mines). Sept. 1968, pp. 59-63.

SPECIALTY STEELS

Research and Production Approaches for Spectrographic Analysis in the Specialty Steel Industry. J. P. McKaveney, H. E. Baldwin and G. L. Vassilaros (Crucible Steel Company). Nov, 1968, pp. 54-59.

SPECTROGRAPHIC ANALYSIS

Research and Production Approaches for Spectrographic Analysis in the Specialty Steel Industry. J. P. McKaveney, H. E. Baldwin and G. L. Vassilaros (Crucible Steel Company). Nov, 1968, pp. 54-59.

STEELMAKING

Electric Arc Melting—A New Era in Steelmaking. J. W. Brown (Union Carbide Corp.). Oct, 1968, pp. 21-26.

Forces of Economic Change in the Asian Steel Industry. F. M. Hruz and W. V. Morris (Stanford Research Institute). July, 1968, pp. 60-62.

Forces of Economic Change in the European Steel Industry: Excess Capacity and Price Weakness. J. R. Miller (Battelle Memorial Institute). June, 1968, pp. 22-25.

Forces of Economic Change—Steel U.S.A. C. A. Lovgren (Swindell-Dressler Co.). June, 1968, pp. 17-21.

Properties and Control of Hot-Rolled Steels. R. B. G. Yeo, A. G. Melville, P. E. Repas, and J. M. Gray (U.S. Steel Corp.). June, 1968, pp. 33-43.

Recent Progress in the Chemical Extraction of Nonmetallic Inclusions in Steel—Techniques and Applications. R. G. Smerko and D. A. Flinchbaugh (Bethlehem Steel Corp). July, 1968, pp. 43-51.

Stream Pollution Control in the Steel Industry. E. F. Young, Jr. and W. H. Jukkola (Jones & Laughlin Steel Corp.). Dec. 1968, p. 45.

Vaccum Treating Molten Steel by the ASEA-LFR Process. O. Nyquist (ASEA) and M. Rydinger (Deceased). March, 1968, pp. 23-28.

SULFURIC ACID

Copper and By-Product Sulfuric Acid Production by Palabora Mining Company. G. C. Beals and J. J. Cadle (Palabora Mining Co.). July, 1968, pp. 85-92.

History of Sulfuric Acid Production from Converter Gas at the Kennecott Copper Corporation's Utah Smelter. R. Thompson and E. B. Butler (Kennecott Copper Corp.). July, 1968, pp. 82-84.

SUPERALLOYS

Addition of Cobalt to the Ti-6Al-4V Alloy. E. Diderrich (Centre National de Recherches Metallurgiques, Belgium), K. Rudinger (Contimet, Germany), G. Turlach (Kamax-Werke, Germany), and L. Habraken (Univ. of Liege and CNRM). May, 1968, pp. 29-37.

Importance of a Relationship Between Dendrite Formation and Solidification in Highly Alloyed Materials. Ralph P. DeVries (Aztec Metals, Inc.) and G. R. Mumau (Special Metals Corp.). Nov, 1968, pp. 33-36.

Phases Present in the Wrought Superalloy Udimet 700. W. J. Boesch and H. B. Canada (Special Metals Corp.). April, 1968, pp. 46-50.

Structural Stability in Superalloys. T. W. Cowan (Special Metals Corp.). Nov, 1968, pp. 22-27.

T

TANTALUM

Production of Tantalum Metal by Alumino-Thermic Reduction of its Pentoxide. C. K. Gupta and P. K. Jena (Bhaba Atomic Research Centre, India). May, 1968, pp. 25-28.

TITANIUM

Highlights of the First International Conference on Titanium. Stanley Abkowitz (Dynamet Corp.). Sept, 1968, pp. 15-16.

The New Jersey Zinc Company: Electrolytic Titanium Pilot Plant. A. J. Myhren (deceased), E. H. Kelton, R. L. Johnson, G. E. Snow, L. D. Grady, E. W. Andrews, L. J. Reimert, and C. E. Barnett (New Jersey Zinc Co.). May, 1968, pp. 38-41.

TITANIUM ALLOYS

Addition of Cobalt to the Ti-6Al-4V Alloy. E. Diderrich (Centre National de Recherches Metallurgiques, Belgium), K. Rudinger (Contimet, Germany), G. Turlach (Kamax-Werke, Germany), and L. Habraken (Univ. of Liege and CNRM). May, 1968, pp. 29-37.

A Review of Texture Strengthening of Titanium Alloys. H. W. Babel and S. F. Frederick (Douglas Aircraft Co.). Oct, 1968, pp. 32-38.

TUBE DIGESTER

Practical Experiences with the Tube Digester. K. Bielfeldt (Vereinigte Aluminium-Werke, Aktiengesellschaft). Sept, 1968, pp. 48-54.

TUYERE PUNCHERS

The Gaspe Mechanical Tuyere Puncher and Converter Performance. P. L. Fowler (East Coast Smelting and Chemical Co., Ltd.), L. A. Mills (Gaspe Copper Mines Ltd.), and G. A. Balogh (Canadian Electrolytic Zinc, Ltd.). Sept, 1968, pp. 43-47.

Mechanical Converter Punching at the Morenci Smelter. Fred M. Winkler (Phelps Dodge Corp.). Sept, 1968, pp. 38-42.

Mechanical Tuyere Punchers—A Review. F. M. Aimone (Heath & Sherwood (1964) Ltd.). Sept, 1968, pp. 33-37.

U

URANIUM

Uranium Mill Waste Disposal. Robert G. Beverly (Union Carbide Corp.). Dec. 1968, p. 47.

V

VACUUM MELTING

Vacuum Treating Molten Steel by the ASEA-LFR Process. O. Nyquist (ASEA) and M. Rydinger (deceased). March, 1968, pp. 23-28.

W

WATER POLLUTION CONTROL

Engineering Aspects of Water Pollution Control Systems. R. G. Dalbke and A. J. Turk (Kaiser Engineers, Inc.). Dec, 1968, pp. 41-45.

Stream Pollution Control in the Steel Industry. E. F. Young, Jr. and W. H. Jukkola (Jones & Laughlin Steel Corp.). Dec. 1968, p. 45.
